	Establish a teacher service constitution and a teacher council.	4.c	Qualified teachers
	Position the teaching profession among the 10 highest-paying professions.	4.c	Qualified teachers
	One year of professional training in the teaching-learning process before entering the teaching profession.	4.c	Qualified teachers
	Establish a National University of Education by merging all Colleges of Education and Teacher Training Colleges.	4.c	Qualified teachers
	Conduct training programs every three years.	4.c	Qualified teachers
	Create a coordination structure between institutions to ensure that curriculum development, textbook development, and	4.a	Education facilities
	assessment processes are linked and maintained. Establish a strong structure within the school	5.2	Violence against women & girls
	system to address sexual or other forms of violence faced by all communities.		
	A vocational education process that directs students toward specific fields of employment by acquiring practical knowledge in general professional areas.	4.4	Skills for employment
Vocational Education	Parallel to the general education stream, a vocational education stream from year 10 to year 13, preparing students to work in fields such as construction and infrastructure, creative industries, primary industries, service industries, social and community services, and manufacturing and technology.	4.4	Skills for employment
Voca	A Vocational Education Regulatory Department consisting of professionals to advise on the qualitative and quantitative changes needed in the vocational education sector, considering job market demands and global trends.	4.4	Skills for employment
Government - assisted schools	Necessary actions will be taken to strengthen the education of the government assisted schools, including Pirivens, by providing adequate funds and other facilities.	4.a	Education facilities
Higher Education	The national university system will be transformed into centers providing advanced theoretical and experimental education. Efforts will also be made to establish a parallel university system that provides international-level advanced professional education.	4.3	TVET & tertiary education
iversity em	While respecting the freedom of universities, University Grants Commission (UGC) guides the preparations of academic courses in line with national policies.	4.3	TVET & tertiary education
State University System	Appointing the Chairman and other members of the UGC ensuring representation of social diversity.	16.6	Effective institutions
S	Instead of appointing vice-chancellors based on political connections, a new method will be	16.6	Effective institutions

	implemented to uphold the honour of universities.		
	Appoint independent individuals as external governing council members of universities by the University Grants Commission.	16.6	Effective institutions
	Members of governing councils of universities to ensure diverse professional fields and gender representation.	5.5	Women in leadership
	A pool of commonly recommended names from recognized professional bodies for appointing Council members.	16.7	Inclusive decision-making
	Appointing a retired person from a university to the governing body of that university, with only those retired at least five years ago being considered.	16.7	Inclusive decision-making
	A student representative elected by students of the respective university to the Governing Body limiting space only for welfare and other student affairs.	16.7	Inclusive decision-making
	Limiting the tenure of a Council member to a maximum of two consecutive terms.	16.6	Effective institutions
	Faculty members who are qualified as Head of Department or Senior Lecturer with at least three years' experience have the opportunity to be appointed as Dean.	16.6	Effective institutions
	Limiting the term of a dean to a maximum of two consecutive terms.	16.7	Inclusive decision-making
-	Abolition of non-academic staff recruitment on the recommendations of the minister in charge.	16.6	Effective institutions
	Mechanisms at faculty and university levels to address academic, non-academic, and student community grievances and make appropriate recommendations.	4.a	Education facilities
	Eliminating delays in enrolling students to universities.	4.a	Education facilities
	Gradually expanding the tertiary education system so that minimum qualifications for each course are identified and those who meet these qualifications are given opportunities.	4.4	Skills for employment
	Provide necessary provisions to prepare internet facilities in tertiary education institutes, lecture halls, laboratories, libraries, and cafeterias according to proper standards.	4.a	Education facilities
	Establish special units in every tertiary education institution to provide basic qualifications, including English language skills, required for obtaining postgraduate education in international universities and fostering relationships that will allow students to secure post-graduate opportunities through these units.	4.a	Education facilities
	Offer 200 scholarships per year for high school graduates to pursue degrees at internationally ranked universities.	4.b	Scholarships

prevent sexual or other forms of harassment of youth in tertiary education institutions. Provide facilities for students with disabilities to receive education by recognized international standards. Increasing Mahapola and other bursaries in line with cost of living. A university for postgraduate research and development. Provision of necessary financial and physical resources to strengthen postgraduate education and research. Encourage private sector contributions to strengthen research related to industries and service sectors. A vocational education university system for those who pass the tertiary education escondary education. Merge nursing schools into a national nursing university. An independent regulatory unit will be established under the Ministry of Education to regulate the programs of existing private educational institutions. Community educational centres in each divisional secretariat area, integrated with local educational institutions. Community educational centres in each divisional secretariat area, integrated with local educational institutions, libraries, and cultural centres. Educational programs for citizens on fundamental laws in Sinhala, Tamil, and English, as well as on information technology and the use of technological tools. Open and distance education without barriers based on employment status or geographical factors. To achieve this, the facilities of the Open University of Sri Lanka will be expanded.

3.11	A good public transportation service - Speedy		
	final destination		
	Repairing railway tracks which are in a delipidated state, introducing a formal maintenance programme, and establishing an automatic signal system with new technology	9.1	Infrastructure development
	Based on practical requirements developing main railway lines into two-tracks, and lines around main cities as three-track lines	9.1	Infrastructure development
9.	Gradually expanding railway lines on a priority basis to cover the regions which are not covered by the railway network at present, and thereby giving railway access to all main cities	9.1	Infrastructure development
Railway service	An efficient 24/7 railway service by including more train compartments and increasing running frequency	11.2	Public transport systems
Railw	Gradually developing the railway system to have trains run on electricity	9.1	Infrastructure development
	Efficiently using the railway service to safely transport production raw material, consumer goods, and agricultural and fisheries produce	9.1	Infrastructure development
	Development of parking facilities near train stations to park private vehicles owned by passengers	9.1	Infrastructure development
	Gradually introducing monorail and light railway transport to strengthen public transport in populated areas, whilst prioritising the programs to develop railway and bus services	9.1	Infrastructure development
	Introducing buses manufactured specifically for passenger transport, and providing an easy financial scheme to procure such buses	9.1	Infrastructure development
Bus passenger service	A strong passenger bus service development by improving transport at night as well as on the main roads and the roads where passenger bus transport is at an unsatisfactory state	9.1	Infrastructure development
	Formation of cluster bus companies using new digital technology, established by integrating state and private bus services for regions selected in a manner that income from buses is equitably distributed among the buses	9.1	Infrastructure development
Bus	POS ticket machines in all buses which allows payments by pre-paid cards through a digital platform	9.1	Infrastructure development
	Allocation of bus lanes in populated areas giving priority for public transport and gradually introduce Bus Rapid Transit (BRT) system	9.1	Infrastructure development
	Gradual introduction of electrically operated buses to the public transport service	11.2	Public transport systems
