

Status Report on SDG Indicators: Sri Lanka

Sustainable Development Council of Sri Lanka
November 2025

Digital Transformation Towards SDG Data Management

- **The greatest challenge in reviewing Sri Lanka’s progress in achieving Sustainable Development Goals (SDGs) is the limitations in data, both in terms of availability and frequency of compilation.**
- **In 2017, the Report titled ‘Status of SDG Indicators in Sri Lanka’ issued by the Department of Census and Statistics reported data availability for only 46 SDG indicators out of the 247 SDG indicators proposed by the SDG Global Framework.**
- **The Sustainable Development Council of Sri Lanka (SDCSL) has taken the initiative to strengthen SDG Data Governance and Management Systems.**
- **The National SDG Data Portal (<https://data.sdg.lk/>) launched by SDCSL is an integrated platform that links all government institutions to a central platform promoting a whole-of-government approach to data compilation and dissemination.**

Data Validation Process

- **Through an interactive process initiated in January 2021, SDCSL maps, verifies and validates the data currently available with all government institutions following the three-step process outlined below:**
 - **Analyzing data requirements of SDG indicators in line with the UN Meta-data Guidelines;**
 - **Initial assessment to compile Baseline Data available with government institutions through an interactive process;**
 - **Verifying and validating the Data as official government statistics.**

- **In addition, this report also includes data generated by international agencies that did not undergo the standard data validation process.**

- **Further, the current data gaps are being identified and initiatives are being taken to develop methodologies to generate and compile data for additional SDG indicators necessary to review progress towards SDG targets.**

- **The data process has been supported by the technical and statistical expertise provided by the Department of Census and Statistics, United Nations Economic and Social Commission for Asia and the Pacific, the United Nations Development Programme and other UN Agencies in Sri Lanka.**
